Unofficial Eval Completed by/date: _____

This is the **unofficial evaluation** of your credits to date including transfer credits (if applicable) in your chosen major. **This evaluation is official when all official transcripts for all previous college work are received; and reviewed and approved for transferability by the Registrar's Office.** Beginning with your first semester of enrollment, your Degree Audit Report in My.LaRoche will automatically track your progress toward your degree, and guide you in planning future class schedules. Review your updated Degree Audit Report with your advisor prior to registering each semester.

PURPOSE: The major in Mathematics introduces students to a field whose origins date from the dawn of history and whose ever-increasing pervasiveness and importance in science, engineering, business and finance renders it a veritable master-key to our understanding of the world about us. The degree in mathematics opens many doors to students upon graduation, to a job in business, industry or government, to certification as a teacher, to graduate study in mathematics, statistics, and computer science, among many other fields, or to a professional school such as in business or law. Moreover, the major in mathematics serves as a gateway not only to a job and career, but also to a world where logic and imagination combine to create timeless beauty and truth.

REQUIREMENTS: To successfully complete the Mathematics major, the following coursework is required:

- 54 credits as listed under "Major Component/Requirements" (46 in Mathematics and 8 in Physics)
- 37 CORE credits
- 29 General Elective Credits
- A minimum number of 120 credits are required for degree, the last 30 of which, and 50% of the major must be earned at La Roche College. (Developmental course work does not count toward the minimum number of required credits for graduation.)

Community/Global: 6 credits (or 6 credits in same Foreign Language for majors that do not require a language)

_____ COMM	Community	3	_____
_____ GLBL	Global	3	_____

Select Courses: 15 credits

18 credits are required with study within each of the following domains. Students can fulfill six domains with four courses (earning a total of 12 credits) by completing "dual-domain" SELECT courses SLDD. Student earns 3 credits only for each dual-domain course. The "lost" 3-6 credits can be fulfilled through a major or general elective. **PLEASE NOTE: Some "Select Courses" may be filled by meeting Major Requirements and if so, will be annotated as such.**

_____ SELECT Aesthetics (SLAE)		3	_____
_____ SELECT History (SLHS)		3	_____
_____ SELECT Literature (SLLT)		3	_____
_____ SELECT Religion/Philosophy (SLRS)		3	_____
_____ SELECT Science (SLSC)		0	Fulfilled in major
_____ SELECT Social and Cultural Systems (SLSO)		3	_____

GENERAL ELECTIVES: 29 credits

General electives may be applied to the requirements of a second major, or a minor, or a certificate program. In the past, students have often combined a major in mathematics and a minor in either computer science or finance.
