Results

- The results for this type of subject search will generate a list of topics specific to your search and the databases that you can find those topics in.

DATABASE SEARCH
Down to the Databases
- Selecting the databases
- Searching the database
- Finding articles

Getting to the Database
- Accessing library resources
- Electronic resources
- Databases

EbscoHost Integrated Search
- Accessing the search interface
- Entering search terms
- Retrieving results
General Search

Select the database(s) you want to search

A Basic Search

Search Results

- Narrow your findings by using the Refine Results section at the left of the page.
A Basic Search

- Most common type of search.
- Allows multiple terms to be used.

Can make the search even more specific by changing the and to another qualifiers like "not" or "or".
Adding limiters

Request of an Article

• To request an article from the library, contact:
  
  – Caroline Horgan in the Wright Library
  – Caroline.horgan@broehe.edu
  
  – Subject line “ILL for online student”
  
  – Include title, author, volume, issue number, date and page numbers

Final thoughts

• Searching for references/resources is a skill that you develop with practice

• Try several search options.
  – Advanced
  – Basic
  – Alternative

• If you are struggling....
Where to go for help???
